24 v Underground Kits

We Recommended using the 24 v underground units
Which have been designed for high usage Installations
And are microprocessor controlled for added safety & will
re attempt to close after an obstruction.

We have several of these units working on multiple use installations
with up to 80 Property's

Force test to BS EN 12453

The BS EN 12453 force test is now a legal requirement
On all automated gates on installation & modifications,
We have invested in the test equipment and will carry out the test
And provide you with the required certification on completion.

Servicing

We will give your gates a Full Free Service

At the end of your first year then
A service call is recommended for every 12 months
Consisting of :-

Greasing of all moving parts
Cleaning out any debris in the foundation boxes
Unlocking of safety release units cleaning & greasing
Checking all electrical parts & connections
Realigning of gates if required

Force Test to EN 12453 (legal requirement)

Retuning of movements if required
If any parts are failing we will attempt to change
them on that day.

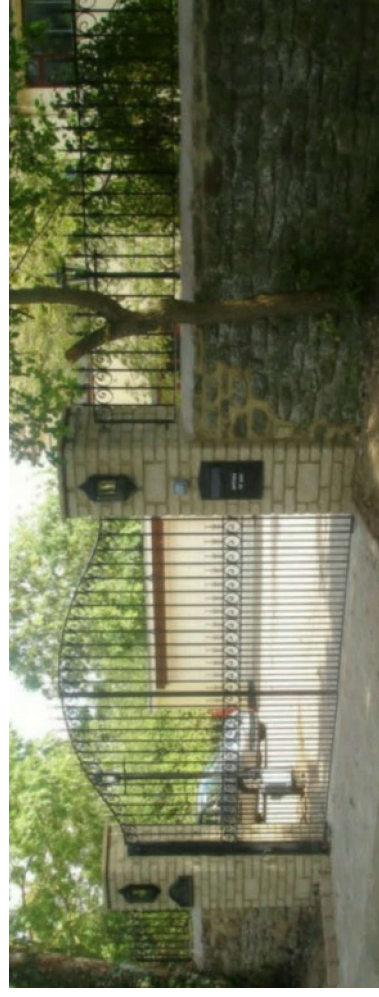

We carry most parts in our mobile workshop.

The technician carries a price list for the parts with him
and will give you the price before any changes are made.

Approved Nice Installers

Compliant with the relevant European Directives
EN 17025 standards

- 24v dc with magnetic encoder. Perfect for intensive use
- Easy programming by pressing a single button
- Clutch with anti-crush safety feature
- Automatic memorisation of limit switches
- In opening and closing with self-learning function
- Pause time programming; partial opening
- Slowdown during opening and closing
- The system will operate during a blackout by means of optional rechargeable battery's
- Grease lubricant
- The weight of the gate does not lie on the pin of the box but on a metal ball bearing
- Extremely silent

Kit Includes

- 2 x Underground motors
- 2 x foundation casings
- 1 x control unit
- 1 x radio transmitter
- 1 x set safety photocells
- 2 x hand transmitters

L-Fab

Irreversible electromechanical gear motor for single or double swing gates 24v dc

We use the same motor for high usage installations

A More Evolved Range:

- No Welding for optimisation of durability and performance.
- New boxes in cataphoreses finish (MECF).
- Highly resistant to corrosion, with mechanical stops in opening

Moonclever Control Unit

(MC824H) equipped with Blue BUS technology

ON2E transmitters

EPMB outdoor photocells via blueBUS Technology.

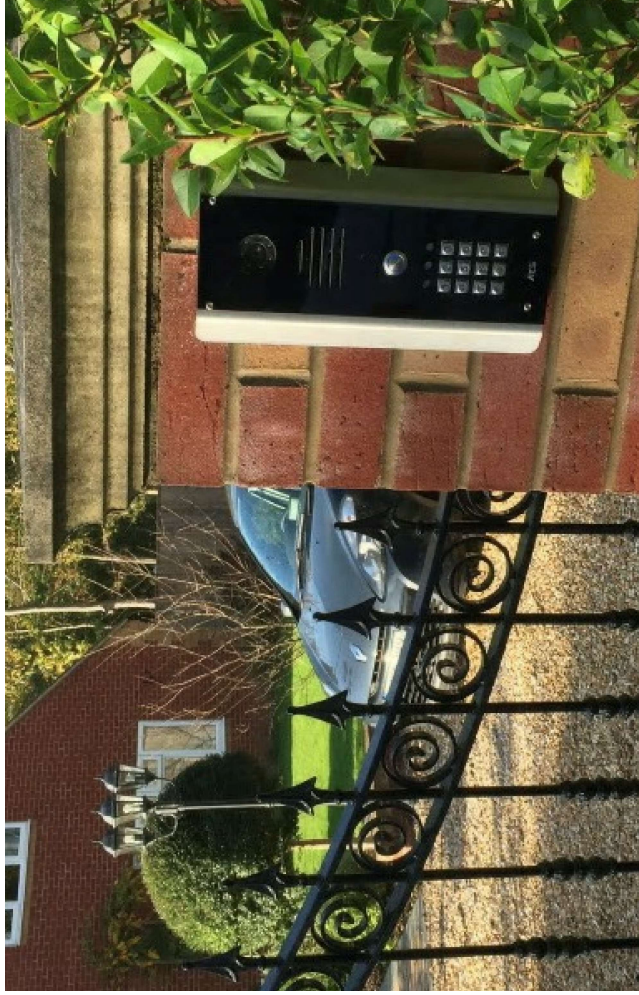

Battery Back Up

Allows normal operation of the gates during power cuts
Automatically recharges when power resumes

Reliable and resistant:

Motors made up of solid internal parts in metal & bronze alloy. New IP67 waterproof die cast aluminium.

Dect 603 Wireless Intercom

DECT 603 Wireless Intercom

- Digital D.E.C.T wireless intercom system.
- Working range of 200 metres (up to 400 metres open field conditions).
- Up to 4 handsets per system.

DECT 605

- Wireless video intercom system for gates.
- Longest range Rf video intercom in the world, working range 200 metres (450 m open field).
- unique technology combining 2.4 G digital & DECT 1.88GHz digital signals.
- Colour camera with infrared night vision capability.
- Long range antenna as standard.
- Gate / Door release relay built in.
- Optional keypad for access control.
- Up To 3 605-EH additional handsets available

Prime 6 Gsm

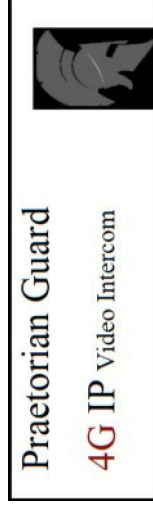

Calls fixed line phones

Calls Mobile cell phones

Calls up to 4 numbers in sequence
If not answered in set time

PRIME 6 GSM

- GSM intercom for unlimited range access control.
- Makes phone calls on a SIM card, just like a cell phone.
- Can call up to 4 numbers in sequence (depending on model).
- Can call both fixed line and mobile phones.
- Caller ID feature built in for access control for up to 100 numbers.
- Optional iPhone and Android app's available for advanced control of relay outputs.
- 2 year manufacturers warranty.
- 2 relay outputs.
- IP 56 rated panels.
- BS-316 marine grade brushed stainless steel and reinforced gloss black acrylic construction.
- INNOVATIVE SECURITY TECHNOLOGY Cell Com

Praetorian Guard 4G IP Video Intercom
The Praetorian Guard is a feature rich Video IP intercom with over 70 unique features

Multicom

MultiCOM

Multi apartment / multi resident
wireless GSM intercom.

- Digital directory and display, users can scroll names or dial by apartment number.
- Customisable welcome screen message and instructions.
- Press * for relay 1 and # for relay 2.
- Keypad can also be used as 4-6 digit access control keypad
- 2 year manufacturers warranty
- Digital panel calling up to 500 apartments!

Cellcom Plus

CellCOM Plus

Multi apartment / multi resident
wireless GSM intercom.

- Same as above. However, using buttons instead of keypad input.

Child Safe

Your Children can enter the property by a quick dial number on their mobile phones as long as the number is registered on the system at no charge
Saves giving them a remote to loose

MOON RADIO Transmitter

- Radio-controlled digital switch wireless device, with the Safety of the rolling code system.
- Convenient: no wiring necessary range 200 m outdoors 35 m indoors.
- Sturdy: Vandal-proof die-cast aluminium casing IP54

Ideal companions to the entry phone to allow authorised personnel to obtain entry through the gates.

An additional unit fitted inside the gates can be used for exiting the grounds

12v Digital switch with 2 wire connection to decoder or radio controlled

Vandal proof die-cast aluminium case IP54
Illuminated relief keypad with protective top
255 Programmable combinations
Intelligent: environmental brightness control
Sensor keyboard will only light up when necessary
Cheap: extra low consumption the transmission will
Activate when the user presses the key, and switch
Itself off automatically

Vehicle Detection

Optex OVS Vehicle Presence Sensor

- The OVS-01GT from OPTEX is designed to reliably detect the presence of a stationary or moving vehicle while also having the ability to ignore most human traffic. It also eliminates the hassles associated with the installation of an induction loop.
- No more concrete cutting required.
- The OVS-01GT can be mounted at 500mm from the ground and can detect

DOES NOT REQUIRE DIGGING UP DRIVEWAY

*USED TO OPEN GATES AUTOMATICALLY AS
VEHICLE LEAVES DRIVEWAY*

AES Wireless Vehicle Detection System

PRESENCE MODE WITH ADDED RADAR PROTECTION.

Dual sensor technology.

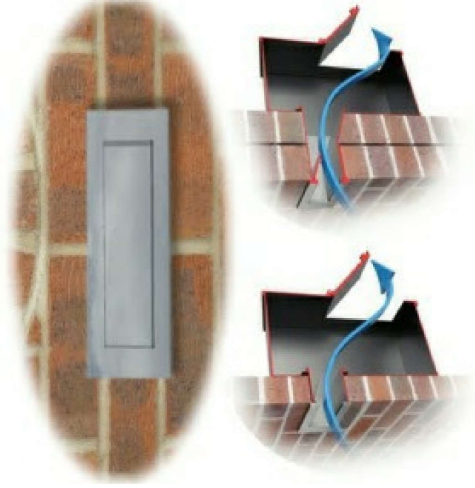

- Magnetic field and Radar detection.
- Compact profile – only 28 mm high x 220 mm diameter.
- Not affected by ground movement.
- 10600 mA battery giving up to 10 years battery life.
- High security 128 bit encryption.
- Range 50 metres.
- Made of high-impact plastic (10 tonne static load limit).

Mailboxes
